KEY TECHNOLOGIES

Virtual Reality (VR) Headsets

As part of our commitment to innovation, Pasypto is exploring the integration of Virtual Reality (VR) technology to revolutionize how our community connects, learns, and grows. With VR headsets, users will soon be able to experience immersive training environments, attend virtual seminars, explore digital assets like properties or e-commerce products & even host team meetings - all inside a fully interactive metaverse setting.

This leap into VR enhances engagement and brings a new dimension to networking and education. By combining our profit-based model with cutting-edge technology, Pasypto is not just keeping pace with the future we're building it.

Blockchain for Digital Assets

The goal of this blockchain is to support the creation, transfer, and trade of digital assets (e.g., NFTs, tokens) securely & transparently. The blockchain should allow for the issuance of digital assets, as well as the ability for users to interact with these assets through smart contracts.

PASYPTO OVERVIEW

Pasypto's commission structure and profit-sharing model offer an appealing value proposition to both investors and affiliates. The combination of 7-level sales commissions (16%) and 22% profit share, along with attractive ROI (10-15% every 1st, 10th, and 20th of the month), will be a strong draw for users seeking passive income and incentives to refer others.

The promise of 2.5x returns within 24 months gives a clear, measurable target for investors and affiliate marketers, making it an attractive long-term opportunity.

Key Growth Drivers

- 1. Affiliate Marketing with 6 Level Commission:** The 16% commission across 6 levels, combined with the 22% profit share, creates a strong incentive for users to recruit others, driving organic growth. The deeper the referral network, the greater the potential for users to earn passive income.
- 2. Consistent ROI Payouts:** Offering a stable return of 10%-15% on specific dates each month (1st, 10th, and 20th) appeals to users seeking regular, predictable income streams.
- 3. Profit Share:** The 22% profit share structure further incentivizes users to hold onto their investments, thereby enhancing user retention and engagement.
- 4. Long-Term Return (2.5x in 24 Months):** The promise of a 2.5x return within 2 years is a compelling value proposition for investors, positioning Pasypto as a reliable, long-term investment vehicle.

OUR PROJECT

PASYPTO REVENUE STREAMS OVERVIEW

Pasypto generates consistent profits through multiple high-performing business ventures, including:

E-Commerce Operations (Shopify & Amazon):

We operate over 25 online stores across various platforms, with monthly returns ranging between 20% to 30%. Recently, we launched 4 newly created stores, now listed on our website, which are expected to deliver strong profit margins. Our dedicated e-commerce management team is based in Abu Dhabi, overseeing the entire operations side of this segment.

Meat Export Business:

We have been successfully exporting meat to Dubai for several years. More recently, we've expanded our operations to Saudi Arabia, which is already generating monthly returns of 25% or more. A complete track record of this venture is available for review.

Crypto & Forex Investments:

Pasypto has made significant investments in the cryptocurrency market and is now expanding into forex trading. These trading accounts will soon be publicly viewable, providing transparency and confidence for our investors.

Real Estate Development:

We are entering a major property development phase with our new project, Tarar Mall and Residence, located in Islamabad. The project is being developed on a 2.5 kanal commercial plot. It will feature a 7-storey plaza, comprising 3 commercial floors and 4 floors of residential apartments. The minimum price per square foot starts at Rs 22,000, allowing investors the opportunity to invest in either individual square feet or complete units, depending on their budget and goals.
